The illustrations above are based on the following:

Service costs are the charges for operating your account with us, e.g. Administration fee (where applicable) Dealing commission and UK stamp duty (where applicable). Please refer to the Tariff sheet for more details of the service costs taken by us. Please note the Administration fee is fixed and will not increase with the addition of further investment.

Product costs are the charges for managing the investment and are charged by the Investment Manager not us. The product costs for Investment trusts and funds are based on an average rather than actual amounts and you should refer to the Key Investor Information Document (funds) or Key Investor Document (investment trusts) for details of the specific charges. Please note there are no product costs for investing in shares.

Charges are based on one lump sum contribution or 12 regular contributions over an annual period with no further lump sums or any withdrawals.

Other charges may be applicable based on your personal circumstance and dealing frequency.

The cumulative effect of costs and charges on return

The total charges deducted for each investment will have an impact on the return you might get. Whilst performance cannot be guaranteed we can provide examples of how the charges will affect what you might get back.

Based on a £5,000 investment held for 3 years with an assumed net growth rate of 4% pa in the investment.

Your questions answered

“How are my account costs paid?”

Administration fee:

Taken from your account on the 26th of each month or the next business day. If there is not enough money in your account to pay the fee, we will take the payment from the next credit to your account. If outstanding fees increase over time, you will be able to see the amount owed on your statements. You can then pay into your account as normal to cover the fee owed. Please note, we may write to you if the outstanding amount is not cleared and we may have to sell investments in your account to cover the fee owed.

Statements & contracts notes:

Same as above if received by post (free if received by email).

Dealing commission:

Taken from your account as part of each transaction.

Other fees:

Taken from your account at the time of the individual transaction. We will contact you if there is insufficient money in your account to cover any fees due.

“What interest is paid on cash in my account?”

Gross interest on any cash you hold is credited quarterly to your account at the Bank of Scotland base rate less 3.5%. The Share Centre may retain the difference between the interest paid to you and the interest we are able to earn, as permitted by The Financial Conduct Authority.

“Which shares are exempt from stamp duty?”

In a bid to help growth companies raise finance and encourage you to invest in them, the Government doesn't charge stamp duty on shares on AIM and other recognised growth markets (subject to the appropriate certification). Please refer to the HMRC website to find out which markets are classified as 'recognised growth markets'. Since stamp duty exemption is on a company by company basis, feel free to give us a call on 0370 707 1606 to check whether a particular share is exempt or not.

“What are the options for managing my income (i.e. dividends and interest)?”

Left in the account as cash

Your income is paid into your account and held as a cash balance.

Reinvested

If you're investing to build the value of your capital you can choose to have income reinvested into the same company that paid the dividend/interest. If you select this option we will automatically invest your income into the investment it originated from as soon as possible after receipt. However, we will only reinvest if the value of your income is more than £10.00. Any residue amount not invested will not be carried forward and will remain as cash within your account.

Paid out

If you're investing to generate an income we can arrange for income to be paid into your bank or building society account immediately.

“How do I choose my preferred option?”

Simply indicate how you would like your income handled when you open your account. Once your account is open, you can change how your income is managed by calling our Customer Service team on 0370 707 1606.

Why is the illustration based on £5,000 lump sum investment rather than the amount I wish to invest?

This has been used as a typical investment amount for illustration purposes.

Why does the illustration not represent my personal circumstances or investment amount? Can you provide me with a personalised version?

The illustrations are intended to be generic in nature and it is not feasible to cover personal circumstances for customers, therefore, we will not be producing personalised versions of the illustration.

Why does the illustration not include all the charges I may pay? Where can I see what other charges are applicable to my account and investment?

Our illustration is based on the standard tariff and charges to keep the illustration as simple as possible. To cover the various charges that might be incurred there are too many variables that will affect this, such as the number of investments or withdrawals you make, and therefore it not practical to make assumptions on this. Our tariff contains details of all our account charges and the Key Investor Information Document (KIID) or Key Information Document (KID) will provide details of the product charges specific to your chosen investment.

Why have you used a 4% growth rate for a three year period?

4% has been used as an average rate of return. The actual investment return could be greater or less and 4% has been used for illustrative purposes only. The Key Investor Information Document (KIID) or Key Information Document (KID) will provide details of the past performance of your chosen investment. Don't forget that past performance is not a reliable indication of likely future performance.

Other questions or problems?

If you have any further questions or problems, feel free to give us a call on 0370 707 1606.
